### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 19 and 20 have been rewritten as follows:

19. A multi-mode base station using one clock, when the systems to be synchronized are a GSM-type telecommunications system and a WCDMA-type telecommunications system, comprising:

means (624, 628) for implementing the system clock of the GSM-type system using multiples of the frequency of the WCDMA-type system clock,

means (624, 626, 628) for synchronizing the frame structure of the GSM-type system at intervals of thirteen frames or a multiple of thirteen frames.

20. A multi-mode base station using one clock, when the systems to be synchronized are a GSM-type telecommunications system and a WCDMA-type telecommunications system, comprising:

implementing means (624, 628) implementing the system clock of the GSM-type system using multiples of the frequency of the WCDMA-type system clock,

synchronizing means (624, 626, 628) synchronizing the frame structure of the GSM-type system at intervals of thirteen frames or a multiple of thirteen frames.

The changes to claims 19-20 were made to provide antecedent basis for "GSM-type system" and "WCDMA-type system" .

The following is an examiner's statement of reasons for allowance:

Claims 1-20 are allowed because the prior art does not disclose or suggest a method, arrangement or multi-mode base station having means for synchronizing a GSM-type system and a WCDMA –type system, including implementing the system clock of the GSM system using multiples of the frequency of the WCDMA system and synchronizing the frame structure of the GSM system at intervals of thirteen frames or multiples thereof.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
